SLOPPY WORK

Garbage Collectors to Be Talked to By City Official.

Arrangements are being made by Acting Street Commissioner Wooden for a meeting of all the garbage collectors at the city stables. There have been many complaints registered with Secretary Kappeler regarding the manner in which the collectors of the city perform their work, and it is likely that some of the collectors will be asked to leave the city's service. Most of the complaints have come from the commercial section of the city, represented in the City Council by Ald. Tyrrell, who called attention to the situation at Tuesday night's meeting of the council.

It is planned now to paint a number on each garbage cart and to also paint each cart with the name of the collector and his telephone number—626—so Works Department to register complaints.

BANK AND CITY

Former Will Not See Latter Sacrifice Debentures.

Members of the Board of Control conferred with the officials of the Bank of Hamilton regarding the city's finances, and will hold another meeting later on. The statement was officially made that the city could not stand by and see the city sacrifice debentures it has on its hands, and that it will not stand by in the holding of the school money. As the council has to supply the Board of Education with all it needs, the latter will have to have more say about its expenditures.

GOING AHEAD

National Natural Gas Co. Carrying Out Its Plans.

While Ald. Dr. Hopkins and a few others are not favorable to the National Natural Gas Co. being among the councillors who opposed the formation of a franchise in 1912, the Council and the Aldermen generally believe that the new company is doing its best and will no hesitation in giving it a franchise. The Aldermen have laid off within the city limits, seven and a half miles of pipe. It has also laid off 12 miles of pipe, including twelve-inch mains from the wells around Rainsham Centre to Blackhead and from there to Hamilton. About four miles of pipe have been laid down in East Hamilton, and this is sufficient to convince the councilors that the new company is keeping faith with the municipality. It was stated at the city hall to-day that the new company is all ready for delivery to the Hamiltonians.
